

DATASHEET

Ripley NO-NIK® Fibre Optic Strippers

The Ripley NO-NIK® fibre strippers are ideal for stripping and scoring fibre optic cable. Cutting blades are made from razor graded steel which scores fibre effortlessly.

Features & Benefits

- Accurate to -0mm, +.0127mm
- Exclusive centring device position fibre for precise scoring and removal of buffer coating
- Razor-sharp blades score buffer without cutting through it
- Colour-code, cushioning grip handles for quick identification
- Plastic heads, which only make contact with the buffer, centre and support your work on both sides
- Cutting blades made from quality razor graded steel to score the buffer completely
- Back- up blades support the cutting blades which lock up when the tool is closed to maintain perfect concentricity
- Buffer being removed acts as guide and protection for the fibre
- Stripping blade diameter is marked clearly on the plastic head
- Arrow indicated which direction pressure should be applied while stripping
